## Experience

### Full-stack Developer | Freelance

May 2024 – present

- Developed and launched Chikrice, an independent project, handling all aspects of web development as a solo developer.
- Collaborated with two colleagues to form a team providing end-to-end e-commerce solutions, including web development, digital marketing, and content creation, tailored for small business owners.

### Frontend Developer | Utopia

Apr 2023 – May 2023

- Led frontend development for various projects, including live streaming platforms, utilizing different versions of Vue.js.
- Collaborated closely with backend teams to ensure seamless integration and optimal performance of web applications.
- Mentored junior frontend engineers, providing guidance and support to enhance their technical skills and project contributions.
- Contributed to improving code quality and implementing best practices, resulting in more efficient and maintainable codebases.

### Frontend Developer | CEIT

Apr 2022 – Apr 2023

- Developed engaging web games, collaborating with cross-functional teams including UI/UX designers, QA engineers, and backend developers.
- Optimized React applications to improve performance and user experience.
- Participated in frontend technical planning, contributing to architecture decisions and project roadmaps.
- Ensured high-quality code through close collaboration with the QA team, addressing bugs and refining user interfaces.
